

Single-seater desk with undershelf h908_81

Single-seater double-column school desk in steel and beech, dimensions 70x50x59 cm. Reinforced structure and integrated undershelf for intensive school use.

The **single-seater double-column school desk model H908_81** represents a professional furniture solution designed to respond to the mechanical stresses typical of educational environments. The **double-column** configuration, made with **28 mm steel** tubulars, ensures superior stability compared to standard models, minimizing oscillations during writing and study activities. The integration of a **solid beech undershelf** not only increases the structural rigidity of the furniture, but also offers a functional and durable space for organizing teaching materials, keeping the work surface clear of clutter.

Technical features

- **Type:** Single-seater double-column desk for professional school use
- **Structure:** Steel with circular section legs Ø 28 mm, aluminum-colored painting
- **Worktop:** High-resistance ivory finish, easy to sanitize
