

Single-seater school desk h908_13

Single-seater school desk, height-adjustable single-column structure, 70x50 cm top with wire shelf. Ergonomic and versatile. This **single-seater desk** is designed to meet the dynamic needs of modern school environments, offering an ergonomic solution that accompanies the student throughout their growth process. The **single-column** structure ensures high stability while reducing the footprint on the ground, facilitating cleaning and maintenance operations of the rooms. The adjustment system allows the work surface to be adapted to different age groups, always ensuring a correct posture during educational activities. The integrated **wire shelf** offers a practical space for organizing books and school materials, keeping the work surface free from clutter.
