

Single-seater student desk h908_74

Single-seater school desk in Ø40 steel with 70x50 cm top and grid undershelf. C-shaped structure for maximum freedom of movement and stability.

The **single-seater school desk model h908_74** is a technical furnishing solution designed for high-traffic educational contexts, such as secondary schools and high schools. The "C" structural concept is aimed at optimizing user accessibility and comfort, eliminating the frontal obstructions typical of traditional structures and promoting an ergonomic posture during prolonged study sessions. The use of materials resistant to wear and common chemical agents ensures a long operational life even in environments subject to continuous stress.

Technical features

- **Top dimensions:** 70 x 50 cm, ideal for housing paper materials and digital devices.
- **Height:** 76 cm (standard for secondary and high schools).
- **Supporting structure:** Steel tube with diameter Ø40 mm, aluminum color finish.
- **Configuration:** "C" frame to facilitate lateral entry and maximize legroom.
- **Worktop:** High-resistance surface in ivory color, anti-scratch and anti-reflective.
- **Storage compartment:** Undershelf in electrowelded metal grid, designed to prevent dust accumulation.
- **Stability:** Terminal feet with protective ends to preserve the flooring.
