Single-section static tilt table with fixed height h725_32

Cardiology examination table h725_32 with single-section structure, fixed height 49 cm, electric tilt up to +88°, 180 kg capacity, with 5 safety straps and braked wheels.

The **cardiology examination table h725_32** is specifically designed to promote **patient verticalization** in complete safety, targeting professionals in postural rehabilitation and assisted vertical statics. The **single-section structure** with a **fixed height of 49 cm** allows for easy transfers from wheelchairs, making it particularly suitable for patients with reduced mobility. The tilt is managed by an **electric motor with a thrust force of 8000 N**, which allows reaching an **upright position up to +88°**, facilitating postural therapies and rehabilitation paths.

The device integrates **independently adjustable footrests** in upward and downward tilt **±15°**, as well as a **set of 5 adjustable fastening straps** to guarantee patient stability during every phase of treatment. The mobile base includes **two fixed wheels and two swivel wheels, all equipped with brakes**, facilitating movements when necessary. The **wide padding (74 cm)** is made of **class IM1 fire-retardant materials**, available in various colors, and the frame design allows for integrated use with **patient lifts**.

Technical features

- **Total dimensions:** L. 2000 × W. 740 × h. 940 mm
- **Fixed height:** 49 cm
- **Structure:** painted steel
- **Tilt motor:** electric, thrust force 8000 N
- **Maximum positive tilt:** +88°
- **Independent footrest tilt:** ±15°
- **Medical device:** yes
- **Maximum capacity:** 180 kg
- **Safe working load:** 140 kg
- **Safety straps:** 5, adjustable

- **Wheel system:** 2 fixed + 2 swivel, all with brakes
- **Upholstery and padding:** class IM1 fire-retardant
- **Patient lift compatibility:** yes, guaranteed passage freedom
- **Available colors:** various

Optionals

- **Armrest table**
