

Single-sided bicycle rack 4 places h1003_06

Single-sided bicycle rack 4 places in painted galvanized steel. Dimensions: W 148 x D 45 x H 85 cm.

The **H1003_06 bicycle rack** is designed to offer a **functional, resistant, and modern design solution** for the organization of bicycles in public spaces. Ideal for **urban furniture**, it is designed for more livable and inclusive cities, where every detail contributes to the promotion of **sustainable mobility**. Its **soft and dynamic lines** give an elegant and discreet appearance, suitable for any urban context: sidewalks, schools, squares, parks, commercial areas, and public offices.

The structure is made of **galvanized steel and painted with thermosetting polyester powders**, materials that guarantee **high resistance to corrosion**, atmospheric agents, and the wear of time. This makes it perfect for outdoor use in any climatic condition.

The model is **single-sided** and can accommodate **up to 4 bicycles**, ensuring safe and orderly support. The **provision for ground fixing via bolts** (not supplied) ensures **optimal stability**, even in highly frequented contexts.

Thanks to the possibility of customizing the coloring according to **RAL from the color chart**, it adapts perfectly to the visual identity of the place where it is installed.

Buy the **H1003_06 rack** now and improve the livability of your public spaces! For large quantities, request a personalized quote immediately.

- **Resists:** atmospheric agents thanks to high-quality materials.
- **Design:** modern that integrates with urban furniture.
- **Ease:** of installation with ground fixing.
- **Ideal:** for promoting sustainable mobility.

FAQ:

1. Is the product suitable for outdoor use?

Yes, it is made with galvanized steel and painted with thermosetting powders, ideal for resisting rain, humidity, and sun.

2. Are the fixing bolts included?

No, the rack is pre-drilled for fixing with bolts, but they are not provided in the package.

3. **Does the structure arrive already assembled?**

Yes, it is delivered already assembled and ready for installation.

4. **Is it possible to choose a color other than the standard one?**

Yes, upon request it is possible to order the rack in any color from the RAL chart.

5. **How many bikes can it accommodate?**

The H1003_06 single-sided model can accommodate up to 4 bicycles simultaneously.

Mini buying guide:

If you are looking for a rack for urban spaces, first consider the number of bicycles it must accommodate: for medium-traffic areas, a 4-space rack like the H1003_06 model is a balanced choice between space occupied and functionality.

It is important to evaluate the **materials**: galvanized steel with thermosetting powder coating is ideal for outdoor environments because it guarantees **resistance and durability over time**.

Ground fixing is essential to ensure stability, especially in public areas. Furthermore, the **possibility of choosing the color** according to the aesthetic needs of the urban context is an added value.

Finally, always prefer models already assembled, which allow for a **simple and fast installation**, as in this case.

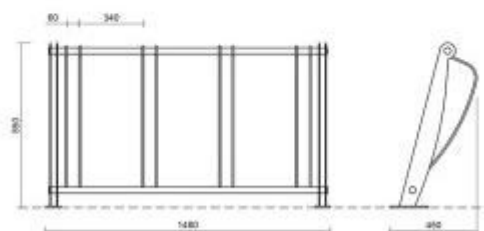

Urban bicycle rack, 4-space steel bike rack, H1003_06 single-sided rack, bike rack for urban furniture, painted galvanized steel rack, rack for public spaces.
