

Single-sided indoor touch screen totem 43 inches h738_137

Indoor single-sided multimedia totem with 43" Samsung touch screen monitor. Elegant and secure structure with tempered glass front. Dimensions: W. 719 x D. 500 x H. 2020 mm.

The **h738_137 digital totem** is a technological and innovative solution for **interactive communication in indoor environments**. Equipped with a **43" Samsung touch screen monitor**, it is ideal for dynamic presentations, infopoints, and interactive multimedia content in **trade fairs, events, showrooms, shopping centers, and waiting rooms**.

Its **anodized aluminum** structure with a black finish provides a modern and professional design, while the **tempered glass front (ESG12150 certified)** protects the screen from impacts and vandalism, ensuring maximum safety and durability. The **heavy 10 mm steel base** ensures great stability and can be anchored to the ground for permanent fixing, using fixing screws not included in the supply.

Thanks to the **internal fan**, the system maintains an optimal temperature for continuous 24/7 operation. Multimedia content can be easily uploaded via **LAN, USB, or wireless connection**, offering maximum flexibility in information management. The **locking system** with a **double lock** guarantees further security.

Customizable with a **logo** upon request for a quote, the **h738_137** totem adapts perfectly to any professional context, combining technology and style.

Buy the **h738_137 freestanding totem** now and enhance your visual communication with an interactive and cutting-edge solution. **Contact us for additional information** or to request **customization** with your company logo!
