

Single-sided outdoor digital totem 55-inch monitor h738_146

Free-standing outdoor totem with Samsung OHF 55" monitor, weather-resistant. With IK10 protective glass. IP65 certified. Dimensions: W. 853 x D. 210 x h. 2009 mm.

The **h738_146 single-sided digital totem** is a technological and robust solution for outdoor visual communication. Thanks to the **Samsung OHF 55"** monitor, it offers exceptional image quality and a vivid visual experience, even in bright light conditions. The structure, made of **aluminum and steel**, is designed to withstand weather elements and vandalism. The external screen has **tempered glass**, so that it is protected from acts of vandalism. Furthermore, the monitor is covered by a front panel in **IK10 protective glass**. The digital totem is protected from driving rain and is **IP56 certified**.

The display is designed to operate in a wide temperature range, from **-30°C to 50°C**, and is equipped with **internal cooling fans** to prevent overheating or freezing of the screen. Multimedia content can be uploaded via **LAN, USB ports, or wireless connection**, ensuring maximum convenience and flexibility.

This digital totem is ideal for contexts such as public spaces, commercial areas, hotels, airports, and outdoor events, where a reliable and visually appealing solution is required to present messages and advertising content.

Choose the h738_146 digital totem to enhance your advertising messages in all weather conditions. **Contact us now** for further details or to receive a personalized quote!
