

Compact post with 12 m belt h16218

Post with belt for long distances. Easy to transport. For indoor and outdoor use. Aluminum structure with self-braking belt rewinder.

The boundary post is a practical system for temporarily limiting access to a specific zone or area.

The small dimensions, and the practical vertical handle, facilitate transport and make this post a very versatile and useful element even in emergency cases.

The protection system is equipped with a robust **aluminum structure** with a **rubber-coated cast iron** base.

The **12-meter belt** complete with integrated centrifugal brake in case it is accidentally released.

The post is suitable for both indoor and outdoor use.

The belt is available in different colors and upon request it is possible to receive a free quote with a personalized logo or text.
