

Slanted fruit display stand h757_08

Slanted stand for displaying fruit, vegetables and flowers, with a stable and robust loading surface, rounded corners and non-slip edge. Surface dimensions: 120 x 120 cm.

The **h757_08 slanted fruit display stand** is the ideal solution for effectively and safely displaying fruit, as well as vegetables and flowers. The structure is made with a **reinforced 35x20 mm profile** and **50 mm oval tubes with 10 mm round tube**, ensuring remarkable strength and stability. The legs are designed with a **98° angle opening** and the stand is equipped with **2 additional front feet** to further improve the stability of the stand.

The **loading surface** is **robust**, with a **surface area** of **120 x 120 cm** and a **load capacity** of **65 kg/m²**, making the stand suitable for supporting heavy loads without deforming. The corners are made of **die-cast aluminum** with an **accident-prevention** design to ensure safety during use. The stand is also equipped with a **10 cm non-slip edge**, covered with a **wooden board**, which prevents the displayed items from sliding.

The different heights of the feet give the surface a practical inclination: the **front foot is 58 cm high**, while the **rear foot measures 97 cm**. This design promotes optimal visibility of the displayed products and facilitates customer service. Made with resistant materials and **assembled using bolts**, the stand is designed for long life and is fully **recyclable**.

Choose the **h757_08 slanted stand** to display fruit and vegetables in a practical and elegant way. **Buy now** and optimize your display space with a stable and functional solution!

Technical features:

- **Loading surface dimensions:** 120 x 120 cm
- **Number of front feet:** 2
- **Front foot height:** 58 cm
- **Rear foot height:** 97 cm
- **Structure:** 35x20 mm profile with 50 mm oval tubes and 10 mm round tube
- **Non-slip edge:** 10 cm covered with wooden board
- **Accident-prevention corners:** in die-cast aluminum
- **Assembly:** using bolts
- **Load capacity:** 65 kg/m²
- **Recyclable:** yes

User benefits:

- **Superior stability:** thanks to the 98° angle opening legs and additional front feet.
- **Guaranteed safety:** rounded corners and non-slip edge to protect products and users.
- **Large load capacity:** supports up to 65 kg/m², ideal for heavy displays.
- **Optimal visibility:** the inclination facilitates the display and viewing of products by customers.
- **Easy to assemble:** bolted assembly for a stable and durable structure.

FAQ:

1. **Is the stand also suitable for displaying flowers?**
Yes, the robust and slanted design makes it perfect for displaying plants and flowers as well.
2. **Is it possible to use it outdoors?**
Yes, the reinforced steel structure is resistant and suitable for covered outdoor environments.

3. **Can the stand be moved easily?**

Yes, the stand is designed to be manageable and lightweight, allowing for easy movement and positioning thanks to its stable yet non-bulky structure.

4. **Is the non-slip edge moisture resistant?**

Yes, the wooden covering is designed to withstand daily wear and tear, keeping products stable.

5. **How much weight can the surface support?**

The surface has a maximum load capacity of 65 kg/m², ideal for heavy fruit and vegetable displays.

Buying guide:

When choosing a slanted stand for fruit and vegetable sales like the **h757_08 model**, it is important to consider the load capacity and the stability of the structure. Thanks to its optimal inclination and high-quality materials such as the **reinforced 35x20 mm profile** and **50 mm oval tubes**, this stand is perfect for markets, fruit and vegetable shops and trade fairs.

The **wooden-covered non-slip edge** ensures that products stay in place, minimizing the risk of falling. In addition, the **accident-prevention corners** in die-cast aluminum protect users during loading and unloading operations.

This stand is **easy to assemble** and fully **recyclable**, a sustainable choice for those who want a robust and long-lasting display unit.

Slanted fruit stand, vegetable display, flower stand, reinforced steel structure, fruit and vegetable display, stand with non-slip edge, stand with accident-prevention corners, market furniture, recyclable stand for shops, stable display for fruit and vegetables.
