

Slide for public gardens h350_123

Playground slide with wooden climbing ladder. **Height: 125 cm**

Playground slide ideal for children's entertainment, certified in compliance with European Standards EN 1176 by the German Institute TÜV - SÜD. The slide for outdoor spaces is made of **autoclave-impregnated Nordic pine wood** with non-toxic salts and is composed of:

- N°1 ladder module with iroko rungs Ø 45 mm fixed to two inclined posts of sect. 7x7 cm with another 2 opposite posts joined at the top by two pantographed phenolic-bonded okoumé mahogany plywood panels with rounded edges treated with colored impregnation and finished with non-toxic water-dilutable wax-based paints; another connecting element is a phenolic-bonded birch plywood platform finished with colored films on both sides. Complete with a safety handle in shaped steel tube, oven-painted at 180°.
- N°1 fiberglass slide h. 125 cm made with several layers of high-density resin.

Assembly using 8.8 galvanized steel bolts and self-locking nuts. Standard nut caps in colored nylon. Hot-dip galvanized metal attachments for ground anchoring.

Technical features:

- Maximum dimensions: 320x90x207 h cm
- Weight: 19 Kg
- Age of use: 3-8 years
- Height difference: 125 cm
- Minimum space: 675x400 cm
- Impact area: 26.00sqm
- Available with underground or floor-flush fixing

*purely indicative image, the product may undergo color changes
