

## Small bus spring rider h763\_05

Multi-user bus-shaped spring rider in polyethylene and steel, dimensions 126x87x103 cm, EN 1176 certified to accommodate up to 4 children.

The **h763\_05** spring rider is a multi-user play structure designed to stimulate social interaction and symbolic play in public and private settings. The bus-shaped silhouette and high-visibility colors promote inclusivity and collective entertainment, allowing simultaneous use by up to **4 children**. Made with materials resistant to atmospheric agents and mechanical wear, it is ideal for high-frequency playgrounds, ensuring high standards of operational safety.
