

## Small medication trolley with 30 compartments h919\_47

Compact medication trolley with key lock. Dimensions: 51.5 x 53 x H 111 cm.

The H919\_47 trolley is a **compact and efficient** solution for the **distribution of medications** in healthcare environments such as **hospitals, nursing homes, outpatient clinics, and care homes**, where space is limited but maximum functionality is required. Designed to assist healthcare personnel, the trolley is engineered to offer **safety, maneuverability, and organization** in the daily management of medicines.

The trolley is supplied **without the pill drawers and compartments**, which are available **only as an option (see above)**. Before proceeding with the order, it is essential to **verify the purchase of the optional items** based on operational needs.

The structure is made with an **epoxy powder-coated steel frame**, with **30x30 mm aluminum uprights** at R90° edges, combining **robustness and lightness**. The **phenolic compact doors and top** guarantee **chemical resistance, hygiene, and ease of cleaning**, essential elements in the healthcare context. The **doors are equipped with a key lock** to protect access to medications.

The trolley is easily maneuverable thanks to **4 Ø100 mm wheels, 2 of which have brakes**, and features **4 corner bumpers** to prevent damage to walls or furniture during transport. With a weight of **45 kg** and a **maximum load capacity of 30 kg**, it is ideal for intensive daily use on indoor floors.

Certified according to **NP EN ISO 9001 and NP EN ISO 13485** standards, the H919\_47 trolley represents a **safe and compliant choice** with quality and safety standards in the medical sector.

Choose the H919\_47 trolley to optimize medication administration in a safe and orderly manner. Verify the pill drawer option before purchase and contact us for quotes or customizations.

### Technical features:

## FAQ:

1. **Are the pill drawers included?**  
No, the trolley is designed for 30 drawers, but they must be purchased as an option.
2. **Is the trolley certified for healthcare use?**  
Yes, it complies with NP EN ISO 9001 and ISO 13485 standards, specific for medical devices.
3. **How much can the trolley carry in total?**  
The maximum load capacity is 30 kg, to ensure stability and ease of maneuver.
4. **Is it easy to maneuver in narrow spaces?**  
Yes, it is a compact model with Ø100 mm wheels and bumpers, perfect for healthcare environments with limited space.
5. **Is there a lock to protect access to medications?**  
Yes, the doors are equipped with a key lock to ensure safety.

## Mini buying guide:

If you need to manage medication administration in wards with limited space, choose a **compact and certified** trolley, such as the H919\_47 model.

It is essential to evaluate the **number of compartments** and the **possibility of integrating drawers** (to be ordered separately).

Always check for the **presence of wheels with brakes, bumpers**, and a **secure key lock**.

Materials such as **coated steel** and **phenolic compact** ensure hygiene and long-term durability.

The **ISO certification** guarantees compliance with healthcare requirements.
