

Small parts storage cabinet h972_38

Steel small parts storage cabinet with 40 4L polypropylene containers. Dimensions 760x260x1600 mm, open structure for quick access.

The **small parts storage cabinet h972_38** represents an advanced technical solution for the systematic organization of small components and consumables in professional contexts. The **powder-coated steel structure** is designed to withstand constant loads and mechanical stresses, making it ideal for use in workshops, production lines, and intensive warehouses.

The system consists of **40 removable polypropylene containers**, each with a capacity of **4 liters**, which facilitate the handling of material directly at the workstation. The **doorless** configuration is designed to maximize operational efficiency, allowing for immediate visual identification and quick retrieval of the content.

Technical specifications

- **Structure material:** High-resistance powder-coated steel
- **Container material:** Impact-resistant polypropylene
- **Color:** Grey/Blue
- **Total dimensions:** W 760 x D 260 x H 1600 mm
- **Unladen weight:** 46.5 kg
- **Configuration:** 40 containers of 4 liters each
- **Adjustment:** Height-adjustable internal shelves
- **Load capacity:** 8 kg per single shelf (total 72 kg distributed)
- **Accessibility:** Open structure without doors

The cabinet is supplied in a mounting kit complete with instructions for quick and intuitive assembly.
