

Small parts trolley with 54 bins h972_06

Mobile steel shelving with polypropylene bins, 30 four-liter and 24 ten-liter units. Dimensions: W 88 × D 60 × H 120 cm.

The **H972_06 small parts trolley** is the perfect solution for **organizing and storing small components, tools, and work materials in a practical and efficient way**. Thanks to its **sturdy steel structure**, it offers stability and resistance, while the **polypropylene bins** ensure lightness and ease of cleaning.

Equipped with a total of **54 bins** with a **double-sided design**, this trolley is perfect for **workshops, laboratories, warehouses, and industrial environments**. The **30 4-liter bins** and **24 10-liter bins** allow you to easily separate and identify different materials, thanks to the **integrated label holders**.

The **swivel wheels** allow for **smooth transport**, making it easy to move the trolley within the work area, ensuring **mobility and convenience**.

Optimize your workspace with the **H972_06 small parts trolley**! Practical, durable, and easy to move. **Buy now or request a personalized quote**.

Technical features:

- **Structure:** Durable steel
- **Bins:** Polypropylene with label holders
- **Number of bins:** 30 of 4 liters + 24 of 10 liters
- **Design:** Double-sided for maximum accessibility
- **Wheels:** Swivel for easy movement
- **Color:** Black/Red
- **Dimensions:** W 88 × D 60 × H 120 cm
- **Weight:** 51 kg

User benefits:

- **Optimal organization:** Perfect for dividing small parts and tools.
- **Durable structure:** Solid steel for durability and stability.
- **Easy identification:** Bins with label holders.
- **Perfect mobility:** Swivel wheels for quick movement.
- **Large capacity:** 54 containers for efficient space management.

FAQ:

1. **Is the trolley suitable for industrial environments?**

Yes, thanks to the steel structure and polypropylene bins, it is ideal for workshops, laboratories, and warehouses.

2. **Is it possible to label the containers?**

Yes, each bin is equipped with label holders for clear identification.

3. **How much weight can the structure support?**

The trolley is designed to support the weight of small parts and tools in a stable and safe manner.

Mini buying guide:

If you need a **versatile and durable solution for organizing small parts, screws, bolts, and tools**, the **H972_06 small parts trolley** is the perfect choice. Thanks to the **steel structure and polypropylene bins**, it allows you to **optimize workspaces** while keeping everything in **order and easily accessible**.

The **swivel wheels** make it **easy to move**, while the **54 double-sided containers with label holders** ensure optimal material management. **Essential in workshops, warehouses, and laboratories!**
