

Small parts trolley with 77 bushings h286_65

Steel sheet metal trolley, designed for the transport of 77 bushings. Blue rubber wheels Ø 125 mm and ergonomic handle. Dimensions: W 70 x D 60 x H 145 cm.

The **H286_65 small parts trolley** is the ideal solution for the **efficient transport and organization of bushings** in mechanical workshops, production departments, and metalworking industries.

Made of **resistant sheet steel**, it guarantees **stability and long life**. It can accommodate up to **77 bushings**, compatible with **CAPTO 6 and HSK 50** standards, ensuring an orderly and accessible arrangement of tools.

The **Ø 125 mm blue rubber wheels** (2 fixed, 1 swivel, and 1 swivel with brake) guarantee **smooth maneuverability and total control**. The **ergonomic handle** allows for comfortable and safe transport.

The **RAL 5010 blue epoxy powder coating** protects the trolley from **rust, wear, and chemical agents**, making it ideal for intensive use.

Rely on the H286_65 small parts trolley for safe and orderly transport of bushings.

Order the **H286_65 small parts trolley** now and optimize tool management in your workspace! Request a personalized quote today.

Technical features:

- **Material:** robust sheet steel
- **Dimensions:** W 70 x D 60 x H 145 cm
- **Capacity:** 77 bushings
- **Supported bushing types:** CAPTO 6, HSK 50
- **Wheels:** 4 blue rubber wheels Ø 125 mm (2 fixed + 1 swivel + 1 swivel with brake)
- **Handle:** metallic for a secure grip
- **Structure:** monoblock, stable and resistant
- **Coating:** epoxy powder, RAL 5010 blue color

User benefits:

- **Structure:** robust for the safe transport of bushings.
- **Capacity:** can accommodate up to 77 bushings of different types.
- **Smooth-running wheels:** with brake for stable and safe movement.
- **Ergonomic handle:** for easy transport.
- **Coating:** resistant to wear and chemical agents.

FAQ:

- 1. How many bushings can the trolley hold?**
The trolley can accommodate up to 77 bushings, compatible with CAPTO 6 and HSK 50 standards.
- 2. Are the wheels suitable for industrial flooring?**
Yes, the Ø 125 mm blue rubber wheels offer excellent grip and sliding on industrial surfaces.

3. **Does the trolley arrive already assembled?**

Yes, it has a monoblock structure and is ready for use.

4. **Is it available in other colors?**

The color of the trolley is RAL 5010 blue.

5. **Is the trolley suitable for industrial environments?**

Yes, it is designed to be used in workshops and production departments, ensuring resistance and practicality.

Mini buying guide:

To choose the **small parts trolley** best suited to your needs, it is important to consider the **load capacity** and the number of bushings it can hold.

The **wheels** must guarantee **stability and smoothness**, especially in industrial environments.

An **ergonomic handle** makes transport more practical, while a **powder-coated steel structure** ensures long-term resistance.

Workshop small parts trolley, metal trolley for bushings, CNC tool holder trolley, CAPTO 6 HSK 50 bushing transport trolley, industrial trolley for tool holders, steel trolley with wheels for workshop.
