

## Small parts trolley with 88 bushings h286\_66

Steel sheet trolley, designed for the transport of 88 bushings. Blue rubber wheels Ø 125 mm and ergonomic handle. Dimensions: W 70 x D 60 x H 145 cm.

The **H286\_66 small parts trolley** is the ideal solution for the **transport and organization of bushings** in mechanical workshops, production departments, and metalworking companies.

Made of **resistant steel sheet**, it guarantees **stability and long life**, making it perfect for industrial use. The trolley can accommodate up to **88 bushings**, compatible with **CAPTO 3-4-5, HSK 32-40, and MORSE K2-K3-K4** standards, ensuring optimal organization and quick access to tools.

The **blue rubber wheels Ø 125 mm** (2 fixed, 1 swivel, and 1 swivel with brake) guarantee **smooth movement and optimal control**, while the **ergonomic handle** facilitates transport, improving maneuverability and safety.

The **RAL 5010 blue epoxy powder coating** protects the trolley from **rust, wear, and chemical agents**, increasing its resistance over time.

Rely on the H286\_66 small parts trolley for safe and organized bushing transport!

Order the **H286\_66 small parts trolley** now and improve the organization of your workspace! Request a personalized quote today.

### Technical features:

- **Material:** robust steel sheet
- **Dimensions:** W 70 x D 60 x H 145 cm
- **Capacity:** 88 bushings
- **Supported bushing types:** CAPTO 3-4-5, HSK 32-40, MORSE K2-K3-K4
- **Wheels:** 4 blue rubber wheels Ø 125 mm (2 fixed + 1 swivel + 1 swivel with brake)
- **Handle:** metallic for a secure grip
- **Structure:** monoblock, stable and resistant
- **Coating:** epoxy powder, color blue RAL 5010

### User benefits:

- **Structure:** solid for the safe transport of bushings.
- **Capacity:** to accommodate up to 88 bushings of different types.
- **Smooth-running wheels:** with brake for stable and safe movement.
- **Ergonomic handle:** for easy transport.
- **Coating:** resistant against wear and chemical agents.

### FAQ:

#### 1. How many bushings can the trolley hold?

The trolley can accommodate up to 88 bushings, compatible with CAPTO 3-4-5, HSK 32-40, and MORSE K2-K3-K4 standards.

2. **Are the wheels suitable for industrial floors?**

Yes, the Ø 125 mm blue rubber wheels offer excellent grip and glide on industrial surfaces.

3. **Does the trolley arrive already assembled?**

Yes, it has a monoblock structure and is ready for use.

4. **Is it available in other colors?**

The standard color is RAL 5010 blue.

5. **Is the trolley suitable for industrial environments?**

Yes, it is designed for use in workshops and production departments, guaranteeing resistance and practicality.

**Quick buying guide:**

When choosing a **small parts trolley**, it is essential to consider the **load capacity** and compatibility with various bushing formats.

The choice of **wheels** affects mobility: **large diameter wheels with brakes** guarantee stability and safety.

In addition, an **ergonomic handle** facilitates movement, while a **powder-coated steel structure** ensures long-term durability.
