

Smooth postural mirror 80x120 cm h731_54

Smooth mirror for rehabilitation centers. Dimensions: W. 80 x h. 120 cm.

Smooth mirror measuring **80 x 120 cm** for use in sports and rehabilitation centers, gyms and physiotherapy studios. **Patented product** with a **modular structure** that makes the mirror installable on large surfaces or on transport trolleys. Composed of a **single block** made of **mirror and injected expanded agglomerate**, with a **frame** and **corner elements**. The mirror is glued to a **safety adhesive film**, with a **layer of polystyrene** and an **MDF closing back**. In case of breakage, the fragments adhere to the agglomerate layer to which the mirror is anchored, ensuring **maximum safety**.

Technical features:

- Dimensions: W. 80 x h. 120 cm
- Type: smooth
- With safety adhesive film
- MDF back
- With frame
- Fixing: on large surfaces or on a trolley (not included)
