

Soap and hand sanitizer dispenser h18535

1-liter white stainless steel automatic no-touch dispenser. Robust, anti-vandal, and ideal for professional hygiene in crowded environments.

The **no-touch soap dispenser** is an automatic dispensing system designed to ensure the highest hygiene standards in professional and public contexts. The structure is made of **painted stainless steel with a white finish**, a material choice that combines mechanical resistance and anti-vandalism properties. The device is equipped with a **1-liter refillable internal tank**, compatible with both liquid soap and sanitizing gels, eliminating dependency on proprietary cartridges.

Operation occurs via **photocell**, avoiding direct contact between the user and the dispenser surface, drastically reducing the risk of cross-contamination. Battery power makes installation extremely flexible, as it does not require wall electrical connections.

Technical features

- **Dimensions:** W. 120 x D. 110 x h. 270 mm
- **Capacity:** 1 liter
- **Technology:** No-touch proximity sensor
- **Compatibility:** Liquid soap and sanitizing gels
- **Material:** Painted stainless steel
- **Finish:** White
- **Power supply:** 3 type C 1.5V batteries (not included)
- **Safety:** Key lock closure
- **Installation:** Wall mounting with included kit
