Vandal-resistant soap dispenser h4011

1100 ml AISI 304 stainless steel liquid soap dispenser with single-weld vandal-resistant structure and level control slot.

The **professional liquid soap dispenser** represents an essential solution to ensure high hygiene standards in high-traffic restrooms. Designed to withstand mechanical stress and tampering attempts, this model stands out for its **single-weld structure** made entirely of **AISI 304 stainless steel**, a material of excellence for corrosion resistance in humid environments.

The integrity of the device is guaranteed by a refill system with a **security key**, making it ideal for unattended public contexts. Use is immediate and intuitive thanks to the **push-button operation** in chrome-plated brass, compatible with all types of standard liquid soap. A practical front slot in transparent plastic allows service personnel to monitor the remaining level without needing to open the tank.
