

Soft armchair with armrests for nursery schools h681_44

Soft armchair with armrests h681_44, made of fireproof, antibacterial, and antifungal eco-leather. Internal structure in polystyrene microgranules and polyester fiber. Dimensions: W 70 x D 50 x h 22/46 cm.

The **soft armchair h681_44** is designed to offer a comfortable and safe area for preschool children, perfect for **nurseries** and **preschools**. The design with **armrests** promotes a comfortable and welcoming posture, making the armchair ideal for reading, playing, or relaxing moments. The armrests add stability and safety, allowing children to sit down and stand up easily.

The **internal structure** is composed of high-density **polystyrene microgranules** (10 kg/mc) and **polyester fiber**, enclosed in an **interlock lining with zipper**. This combination ensures a **stable yet soft seat**, ideal for use in school environments and designed to withstand daily use by children. The **external upholstery**, made of **phthalate-free eco-leather** (composition 88% PVC 12% PES), is treated to guarantee safety and durability. It is **fireproof class 1IM** and offers **antibacterial**, **antifungal**, and **stain-resistant** properties, essential for environments frequented by little ones.

The cover is easily **removable** thanks to a **hidden zipper** with a slider protected by a concealed pocket, maintaining a clean and safe design. The armchair is made with **reinforced seams**: two internal seams and one visible topstitch that elegantly defines its profile. The softness and elasticity of the eco-leather ensure comfort, while the resistance of the materials guarantees long-term durability, even with intense use.

Make your nursery school's relaxation area a truly special place with the **soft armchair with armrests h681_44**! Designed to offer comfort and support to the little ones, it is the perfect choice for creating a safe and colorful corner, ideal for rest and socialization. Add it to your spaces now for a touch of softness that will make children happy!

- **Attractive and functional design:** Shape studied to fit perfectly in school environments.

FAQ:

1. Is the armchair suitable for intense use in school environments?

Yes, it is designed to withstand daily use in nursery schools thanks to its robust internal structure and high-quality, resistant upholstery.

2. **How can the armchair be cleaned?**

The eco-leather upholstery is treated to be stain-resistant and can be easily cleaned with a damp cloth to ensure hygiene and cleanliness over time.

3. **Is the armchair safe for children?**

Absolutely, it is made with non-toxic and fireproof materials and features rounded edges to ensure maximum safety in environments frequented by small children.

4. **Is the external upholstery replaceable in case of wear?**

Yes, the armchair has a removable cover, allowing the external upholstery to be replaced if necessary upon request for a quote, extending the product's useful life.

5. **Is it also suitable for educational activities or only for relaxation?**

The armchair is versatile and can be used for both educational activities and moments of relaxation, offering ergonomic support that facilitates learning in comfortable and welcoming contexts.

Mini buying guide:

The **soft armchair with armrests h681_44** is the ideal choice for furnishing nurseries and preschools with a safe, comfortable, and easy-to-clean product. Perfect for preschool-aged children, it offers a relaxation corner designed for their well-being and safety. The internal structure in microgranules and polyester fiber, combined with the fireproof and stain-resistant eco-leather upholstery, guarantees a comfortable seat resistant to daily use. With armrests and rounded edges, it is designed to welcome children in a safe and cozy way. Perfect for those who want high-quality furniture for school environments.
