

Soft raised toilet seat 11.5 cm 13649

Raised toilet seat with soft polyurethane foam anatomical opening in the front.

A good way to feel at ease while in the toilet is using a soft raised toilet seat. Disabled, elderly people and those who suffer from mobility difficulties will find the raised toilet seat essential.

The raised toilet seat is made of strong and enduring materials, but the equipment itself isn't too elaborate: you need to assemble it by adjusting three brackets and fastening them to the toilet.

The soft seat reduces the vertical pressure on the ischial tuberosities and sacrum and, furthermore, preventing skin irritation and pressure sores. The ergonomic shape, thanks to the anatomically designed gaps, allows the user to keep a correct posture and complete stability while visiting the toilet.

Specifications:

- Height: 11.5 cm
- Width: 38 cm
- Depth: 40 cm
- Opening width in width: 22 cm
- Opening width depth: 26 cm
- Weight: 2.6 kg
- Maximum load: 120 kg
- Soft seat
- Polyurethane foam
- Washable
- Made in Italy

- **Height** 11 cm
- **Width** 38 cm
