

Soft sofa for kindergarten h681_50

Soft sofa for kindergarten h681_50, made of fire-retardant, stain-resistant and antibacterial eco-leather. Removable cover and easy to clean. Dimensions: W 100 x D 60 x H 32/60 cm.

The **soft sofa h681_50** has been designed to offer a comfortable and safe place **for children aged between 3 and 6 years**. Ideal for furnishing relaxation areas, reading or play moments in nursery schools and kindergartens, this sofa not only contributes to the comfort of the little ones, but also to the practicality of educators, thanks to its ease of maintenance and cleaning. Its **welcoming shape** and **compact dimensions** make it perfect for fitting into school environments, creating a corner of softness where children can relax and interact safely.

The **internal structure** is composed of **open-cell polyurethane foam** with a density of 25 kg/m³, a material that combines **softness and resistance** to support daily and intensive use in school settings. The padding ensures comfortable support without being too rigid, ideal for welcoming children during group activities or moments of individual relaxation.

The **outer covering** is made of **high-quality eco-leather**, phthalate-free, with a composition of 88% PVC and 12% PES. This material not only complies with safety standards for children, but is also **fire-retardant**, meeting **fire reaction class 1IM**, an essential feature for furniture intended for school spaces. The **stain-resistant, antibacterial, and antifungal treatment**, furthermore, makes this sofa particularly resistant to external agents, ensuring a hygienic and safe surface, perfect for use even by the youngest children.

The sofa is designed to be **completely removable**: a **hidden zipper** with a slider protected by a concealed pocket allows the cover to be removed easily, facilitating cleaning and maintaining the furniture in excellent condition over time. This feature is particularly appreciated in school environments, where frequent cleaning of furniture is essential.

The reinforced seams, with **two internal seams and one visible topstitch**, contribute to the robustness and durability of the product, also outlining a refined aesthetic that integrates harmoniously into educational and recreational environments. The quality of materials and workmanship techniques ensure that the h681_50 sofa maintains its shape and resists frequent use, offering a long-lasting and reliable solution for school furniture.

This sofa represents a safe and practical choice for creating a welcoming and functional environment, where children can play, read, and relax in total serenity.

Purchase the h681_50 soft sofa to add comfort and safety to your nursery school or kindergarten. An ideal choice for spaces dedicated to children, combining quality, practicality, and design. **Order now!**

FAQ:

1. What materials make up the outer covering?

The outer covering is in soft and resistant eco-leather, treated with stain-resistant, antibacterial, and antifungal properties to ensure hygiene and ease of cleaning.

2. Is it easy to clean?

Yes, the sofa is completely removable thanks to a hidden zipper, allowing for practical and quick cleaning of the cover.

3. Does it withstand daily use?

Yes, the polyurethane foam padding and reinforced seams guarantee resistance and durability even with frequent use, maintaining the sofa in excellent condition over time.

4. Is it safe for young children?

Yes, the sofa is designed for children aged between 3 and 6 years, with rounded edges and safe materials, intended to ensure comfort and protection.

5. Can I replace the cover in case of wear and tear?

Yes, the cover is removable and can therefore be easily removed and replaced, offering a practical solution for long-term maintenance.

Mini buying guide:

The h681_50 soft sofa is an excellent choice for furnishing kindergartens and nursery schools, offering a comfortable seat for children aged 3-6. Made of **resistant and safe materials**, it is designed to ensure comfort and practicality in school environments. The **open-cell polyurethane foam internal structure** is designed to ensure gentle support, adapting perfectly to the needs of the little ones. The **fire-retardant and stain-resistant eco-leather covering** simplifies cleaning and maintenance, offering a soft and safe surface, as well as being removable for even greater practicality.

If you are looking for a versatile and robust piece of furniture for play, reading, or relaxation areas, the h681_50 sofa is an ideal solution. Thanks to its **compact shape** and **ergonomic design**, it easily adapts to different educational spaces and stimulates socialization among children.
