

Solid wood chair for nursery school h908_174

Small chair with armrests in solid beechwood, size 2. Dimensions: W 32.4 x D 29 x H 31 cm.

The **small chair for childhood and nursery h908_174** is designed to guarantee **safety, comfort, and ergonomics** in early childhood educational contexts, such as nursery schools and kindergartens. The presence of **integrated armrests** offers further support for the child's posture, making sitting down and getting up independently easier, especially for the youngest children.

The **structure is made of solid beechwood**, a natural and robust material that guarantees long durability even in high-use environments. The **seat and backrest are anatomical**, made of **beech plywood** and shaped to offer adequate lumbar support, in full compliance with the ergonomic needs of children.

The **seat height is 31 cm**, corresponding to **size 2**, recommended for the **4 - 6 years** age group and compliant with the **EN 1729** standard, which regulates school furniture for children. The chair is ready for use and easily combinable with tables of the same size.

Choose the **h908_174 small chair** with armrests to offer your young pupils a safe and ergonomic seating experience. Contact us for a personalized quote!
