

Space-saving bike rack for public spaces h915_13

Versatile steel bike rack, useful as a bike stand and urban furniture bollard. Dimensions: W. 235 x D. 320 x H. 800 mm.

Innovative bike rack for public areas, with a **compact and space-saving design**, **versatile** as it can be used, if necessary, as a bollard for urban furniture. **Painted steel structure** with epoxy primer and polyester paint for outdoor use. Thanks to an **extendable arm**, it is possible to lock both the wheels and the bicycle frame. The user must provide a padlock to lock the rear wheel and the frame. **No maintenance is required** and it can be **installed with ground anchoring**.

Technical features:

- Dimensions: W. 235 x D. 320 x H. 800 mm
- Number of spaces: 1
- Versatile model - double function (rack and urban furniture bollard)
- Material: painted steel
- Painting via epoxy primer and special polyester paint for outdoor use
- Color as shown in the photo
- With extendable arm
- To be anchored to the ground
