

Space-saving changing table with ladder for nursery h364_71

Space-saving changing table in birch plywood with pull-out ladder. Dimensions 115x75 cm, ideal for autonomy in nurseries.

The **space-saving changing table** is a professional equipment designed for furnishing nurseries and kindergartens, conceived to combine space optimization with the highest standards of safety and ergonomics. The structure, made of **birch plywood**, exclusively uses non-toxic water-soluble water-based paints, which preserve the integrity of the material and guarantee a healthy environment for children and operators.

The design focuses on reducing the physical effort of educators thanks to the integration of a **sliding pull-out ladder**, which allows children to access the upper surface independently. Functional organization is guaranteed by an integrated storage system that includes open compartments and specific drawers.

Technical features

- **Structure:** High-resistance birch plywood
- **Treatment:** Painting with non-toxic water-soluble tints
- **Dimensions:** W 115 x D 75 x h 85 cm
- **Access system:** Sliding pull-out ladder to promote autonomy
- **Integrated equipment:** Open compartment for changing, roll holder with paper included
- **Waste management:** Technical drawer with removable waste bin
- **Mattress:** Polyurethane foam padding with fire-retardant, super-washable, antibacterial, and phthalate-free cover
- **Compliance:** Product certified according to UNI regulations for safety in school furniture
