

## Specialist examination chair h634\_35

Blood collection and examination chair with simultaneous backrest and leg section movement. Capacity: 200 kg.

**Chair for blood collection, donations, and specialist examinations**, ideal for clinics and hospitals. Characterized by a **robust anti-tip structure** that guarantees excellent stability and safety. Specifically, this structure is composed of: a **painted steel frame**, a **surface divided into 4 sections**: headrest, backrest, seat, and legs, and a **completely removable class 1IM fire-retardant faux leather upholstery** to allow for adequate sanitization. The chair is equipped with **1 motor** that allows for the **simultaneous movement of the backrest and leg sections**; the armrests and headrest also move simultaneously with the backrest, and the latter are conveniently removable, rotatable, tiltable up/down, and foldable to 90°. It is also possible to reach the **10° Trendelenburg position**. All movements are easily controlled via a user-friendly **keypad**, which is accompanied by a dedicated bilateral support. To ensure ergonomics and prevent potential pressure sores, the chair is also provided with **removable soft foam cushions** located on the backrest, seat, and leg rest. Finally, the base is complete with **4 swivel wheels**, the rear ones with a simultaneous brake, which allow the chair to be moved in a practical and fast manner.

### Technical features:

- Dimensions: W.84 x D.150 x H. 127 cm
- Capacity: 200 kg
