

Spill emergency briefcase kit h1045_03

Briefcase spill emergency kit h1045_03 for hydrocarbons. Oil-only specific, with sheets, granules, brush and protective PPE.

The **Spill emergency briefcase kit h1045_03** is a portable technical device configured for the containment and rapid cleanup of accidental leaks of hydrocarbons and derived substances. This tool solves the operational problem of dispersing oily and polluting liquids both in outdoor environments, even in rainy conditions, and on water surfaces or near water-based processes where it is essential to retain oils by isolating them completely from the water. The target customer consists of company safety managers, workshop operators, logistics workers and industrial maintenance teams who must fulfill the obligations of managing potentially dangerous liquid substances according to current environmental regulations. Belonging to the oil-only line, the kit ensures selective absorption of hydrocarbon derivatives even in the presence of water. The equipment is entirely organized inside a compact polypropylene briefcase, which includes multi-layer absorbent sheets, granular absorbent, cleaning accessories and personal protective equipment to operate promptly in maximum safety.

Technical features

- **Container:** PP (polypropylene) briefcase with dimensions 36 x 26.8 x 7.3 h cm
- **Absorbent sheets included:** 20 Oil Only sheets, consisting of three ultrasonic welded layers and equipped with transverse and longitudinal pre-cuts
- **Granular absorbent included:** 1 bag of 1 kg of Ecosorboil Granules model HG010, universal anti-slip granular absorbent
- **Cleaning and collection accessories:** 1 brush complete with dustpan
- **Personal Protective Equipment (P.P.E.):** 1 protective mask and 1 pair of gloves
- **Disposal accessories:** 2 dedicated bags for storage and disposal of exhausted materials
- **Chemical specificity:** Oil-only line, suitable for absorbing all products derived from hydrocarbons while repelling water
- **Granulate regulation:** Compliant with European Standard UNI CEN/TS 15366:2010 for solid absorbent products intended for road use
- **Reference environmental regulatory framework:** Legislative Decree 152 of 03.04.06 and subsequent amendments and additions with Legislative Decree 4 of 16.01.08, Iso 14000 procedures, Adr, M.D. 20/2011 and compliance with European regulations
