

Spill kit with container h1045_02

Hydrocarbon spill kit h1045_02 in a 15-liter bucket. Includes sheets, sock, absorbent granules and gloves for oil-only spills.

The **Spill kit with container h1045_02** is a compact emergency response system designed for the selective absorption of hydrocarbons and derivatives in case of accidental leaks. The product solves the operational problem of dispersing polluting liquids both in outdoor environments, even in the rain, and on water surfaces or near water-based processes where it is essential to retain oils but not water. The target customer consists of workshops, industrial production departments and logistics safety personnel who must comply with the requirements regarding the management of potentially polluting and dangerous liquid substances. This kit belongs to the oil-only line, guaranteeing the removal of hydrocarbon-derived products even in the presence of water, in compliance with European regulations and the requirements of Legislative Decree 152 of 03.04.06 as amended and supplemented with Legislative Decree 4 of 16.01.08, as well as Iso 14000, Adr and Ministerial Decree 20/2011 procedures. The equipment is entirely stored inside a bucket with a handle that facilitates immediate handling at the spill site.

Technical features

- **Container dimensions:** Ø 300 x 290 h mm
- **Total absorption capacity:** 15 liters
- **Packaging / Container:** Bucket with handle for rapid transport
- **Absorbent sheets included:** 8 sheets, cross-cut and longitudinally pre-cut, consisting of three ultrasonic-welded layers
- **Socks included:** 1 sock to circumscribe liquids
- **Loose absorbent material:** 1 bag of 2.5 kg of oil-absorbent granules Ecosorboil Granules HG025
- **Personal Protective Equipment:** 1 pair of safety gloves
- **Disposal accessories:** 1 bag for the collection of waste and saturated materials
- **Chemical specificity:** Oil-only line, absorbs hydrocarbons and derivatives and repels water (hydrophobic)
- **Regulatory compliance:** Legislative Decree 152 of 03.04.06 as amended and supplemented with Legislative Decree 4 of 16.01.08, Iso 14000, Adr, Ministerial Decree 20/2011 and European regulations
