

Spill tray for IBC tank with inclined support h746_74

Sheet metal spill tray for 1 x 1000 litre IBC tank, with inclined support. L. 1600 x D. 1300 x h. 950 + 100 mm foot. Load capacity: 1300 kg.

In industrial environments, **containment spill trays for IBC tanks** are used to store tanks in total safety, protecting the environment and workers' health. This is because the trays are able to contain any spills of products and chemicals. This model is made of **sheet steel** and is designed for **1 x 1000 litre IBC tank**. Equipped with **inclined support for decanting operations**. The **supporting surface is hot-dip galvanized and removable, with slats**. The tray is powder-coated in **RAL 7000 colour**. The slats are galvanized. IBC tank not included in the supply.
