

Spine board for rescue h687_01

Spine board for rescue and recovery with two buckle belts. Open dimensions: 480 x 63 x H.1875 mm.

The folding spine board is an essential product for optimally managing first aid operations thanks to its lightweight yet rigid and impact-resistant structure. **The spine board is equipped with openings for strap fastening and three sliding rails of the same width as the stretcher**, permanently mounted on the underside. The product is also supplied with two belts with quick-release buckles for patient immobilization. **The spine board features a high-strength aluminum frame and embossed surface.**

Technical features:

- Material: aluminum
- Folding structure
- Resin-coated extruded finishes around the handles
- Three sliding rails
- Two belts with quick-release buckles
- Impact and corrosion resistant
- Stainless
- Non-absorbent
- Open dimensions: 480 x 63 x H.1875 mm
- Closed dimensions: 480 x 65 x H.930 mm
- Weight: 8 ± 0.3 kg
- Load capacity: 150 kg
