

Spine board for water rescue h687_73

PE spine board suitable for water rescue. Capacity: 350 kg. Color: military green.

Ideal device for the immobilization of patients with suspected spinal or head injuries, the **spine board** made of **PE** in **military green color** guarantees **high resistance, impermeability and buoyancy**, making it **ideal equipment for water rescue**. Its **load capacity** is **350 kg** and it is equipped with **handles and pins** that facilitate transport operations. Its structure makes it **X-ray compatible**. The product has **CND classification V0804** and is a **class I medical device compliant with EU Reg. 2017/745**.

Technical features:

- Load capacity: 350 kg
- Number of handles: 16
- Number of pins: 14
- Length: 1840 mm
- Depth: 445 mm
- Thickness: 50 mm
- Weight: 7.3 kg
- Manufacturing material: PE
- Color: military green
- Tapered shape
- Smooth and contoured surface
- X-ray compatible
- Class I MD compliant with EU Reg. 2017/745
- CND classification: V0804
