

Spiral rack bike stand in stainless steel h109235

Spiral bike rack in stainless steel. Floor-mounted fixing. Available with 5, 7 and 9 spaces. Made in Italy.

The spiral bike stand with a modern design is ideal for schools, stations and shopping centers. The bike rack allows for the creation of practical parking areas for bicycles.

The structure is characterized by **a spiral element** made from a tube welded to two round horizontal steel tubes. At the ends of the horizontal tubes, flat brackets are welded and appropriately drilled for **fixing to the side support stands** using screws. The sides, laser-cut and bent at 90°, are provided with holes for floor anchoring.

To ensure greater resistance to weather agents and wear, this model is made entirely **of stainless steel**.

Technical features:

- Structure: in stainless steel
- Fixing: floor-mounted
- Spiral tube diameter: Ø 22 mm
- Horizontal tubes diameter: Ø 48 mm
- Height: 439 mm
- Depth: 650 mm
- Length: 5 spaces L. 1952 mm / 7 spaces L. 2382 mm / 9 spaces L. 2822 mm
- Weight: 5 spaces 25 kg / 7 spaces 28 kg / 9 spaces 32 kg
- **Italian Product**

INFORMATION

- **Material** Steel
