Spring rider for playground h350_221

Car-shaped spring rider for nursery school outdoor spaces. Dimensions: L.101 x W.48 x H.78 cm.

The **car-shaped spring rider** is an ideal product for furnishing the outdoor areas of **nurseries and schools**, but also **for urban areas such as playgrounds and public gardens**. The spring rider is **extremely safe** and, thanks to the **seat with backrest**, it is also suitable for **children with disabilities**. The product is made with a **double shell of HPL high-pressure laminate panels without sharp edges** and is complete with **handles and footrests in round galvanized steel tube**. The structure is fixed on a **steel spring complete with a finger anti-crush device**. The product is available with **two different types of fixing**: floor-level and to be buried. Galvanized metal attachments are provided for ground anchoring.
