

Square cast iron tree grate h950_18

Square cast iron tree grate h950_18, powder coated. Dimensions: W 200 x D 200 x h 3 cm. Weight: 180 kg.

The **h950_18 square tree grate** is a **robust and functional solution** for the protection and decoration of urban green spaces. Made of **high-quality cast iron** and finished with a resistant **powder coating**, this grate is designed to offer effective protection for roots and the area surrounding trees, preventing soil compaction and protecting from potential damage caused by vehicles or pedestrians.

The large **dimensions (W 200 x D 200 cm)** guarantee ideal coverage even for large trees, while the **thickness of 3 cm** and the **weight of 180 kg** give the grate superior solidity. The solid structure and studied design allow the passage of water and air, favoring the health of the plant and keeping the surrounding environment well-kept and safe.

Thanks to the **powder coating**, the grate offers effective protection against corrosion and weather, making it suitable for all climatic conditions. The **design elegant and practical** easily adapts to squares, avenues, parks, and other public spaces, integrating perfectly into urban furniture and improving its aesthetics.

Make your green areas safer and well-protected with the **h950_18 square tree grate**. Choose a resistant and quality product to ensure the care and beauty of your public spaces. **Purchase today** for functional and durable urban furniture!

Technical features:

- **Material:** cast iron
- **Coating:** powder
- **Dimensions:** W 200 x D 200 x h 3 cm
- **Shape:** square
- **Weight:** 180 kg

User benefits:

- **Durable protection:** Protects roots and soil from external agents and pedestrian and vehicle traffic.
- **High resistance:** Cast iron guarantees superior resistance to impacts and wear over time.
- **Practical design:** Allows the passage of water and air for the tree's well-being.
- **Versatility:** Suitable for various urban contexts, from squares to public parks.
- **Low maintenance:** Powder coating protects the surface, limiting the need for frequent interventions.

FAQ:

1. Is the grate weather resistant?

Yes, the powder coating ensures excellent protection against rain and other atmospheric agents.

2. **Does it favor plant growth?**

Yes, the design allows proper circulation of water and air, favoring root and soil health.

3. **Is it suitable for highly frequented public spaces?**

Certainly, the robustness of cast iron makes it ideal for areas with high pedestrian and vehicle traffic density.

4. **Where can this tree protection grate be used?**

This grate is ideal for use in public spaces such as parks, tree-lined avenues, and squares, helping to protect tree roots and improve the aesthetics of the urban environment.

5. **Can the grate withstand heavy loads?**

Yes, thanks to its robust cast iron structure, the grate is designed to resist heavy loads and wear over time, making it suitable for high-traffic areas.

Mini buying guide:

The **h950_18 square tree grate** is an excellent choice for those who want to combine functionality and style in urban furniture. It is important to consider its ability to protect tree roots and keep the surrounding area tidy and safe for pedestrians. Made of **cast iron** and **powder coated**, this grate offers significant resistance to atmospheric agents and wear, making it ideal for high-traffic areas. Carefully evaluate the product dimensions in relation to the installation area to ensure adequate coverage and protection. Choosing a high-quality grate like this means ensuring the durability and beauty of public spaces for years.
