

Square perforated cargopallet 500 lt h836_20

Square perforated HDPE pallet box, 1130x1130x580 mm, capacity 500 lt. Suitable for food contact and designed for load ventilation.

The **industrial pallet box** in high-density polyethylene (HDPE) is a versatile logistics solution designed to meet the needs of the industrial and food sectors. Thanks to its robust structure and compliance for **food contact**, it allows the storage and handling of raw materials and finished products in total hygienic safety. The configuration with **perforated walls** is specifically designed for contexts requiring constant air circulation, preventing condensation and improving the preservation of perishable products.

Technical features

- **External dimensions:** 1130 x 1130 x 580 mm
- **Internal dimensions:** 1040 x 1040 x 390 mm
- **Volumetric capacity:** 500 lt
- **Material:** Impact-resistant HDPE (High-Density Polyethylene)
- **Structure:** Perforated walls for optimal ventilation
- **Shape:** Square
- **Color:** Grey
- **Compliance:** Suitable for direct food contact

Optional

- Grey drop-on lid
