

Square protective tree grate 99x99cm h330_49

Protective tree grate in galvanized and painted steel, with stripe design and corten finish. Dimensions: W. 990 x D. 990 x h. 44 mm. Composed of 4 sectors with perimeter reinforcement plate.

The **h330_49 grate** is designed to protect the base of trees in urban contexts, combining **robustness, functionality, and aesthetics**. Made of **galvanized and painted steel**, the structure is laser-cut to ensure a precise profile and refined finishes.

The **stripe design** offers a contemporary look and at the same time allows rainwater and air to pass through to the roots, favoring the tree's health. The grate is divided into **4 sectors**, each equipped with a **perimeter reinforcement plate**, to ensure maximum stability and resistance.

Assembly is simple and safe thanks to the **hot-dip galvanized steel hardware** and **brackets for fixing on concrete or with anchors**, both provided in the standard equipment.

The **corten finish** enhances the aesthetic impact of the grate, making it perfect for urban furniture projects that aim to enhance natural elements with a modern and long-lasting style.

A resistant and refined solution to protect trees and harmonize public spaces.

Protect green areas with elegance and functionality: **choose the h330_49 grate** for an efficient and high-design urban furniture.

Technical features:

- **Model:** square
- **Material:** galvanized and painted steel
- **Number of sectors:** 4
- **Design:** striped
- **Perimeter reinforcement plate:** steel
- **Finish:** corten
- **Dimensions:** W. 990 x D. 990 x h. 44 mm
- **Fixing:** hot-dip galvanized steel hardware and brackets for concrete or anchors

User benefits:

- **Tree protection:** isolates and defends the base of the trunk from trampling and impacts.
- **Resistant materials:** treated steel to guarantee durability over time.
- **Modern design:** stripe pattern with elegant and functional corten finish.
- **Modular system:** 4 sectors easy to assemble and install.
- **Ease of maintenance:** the modular structure allows for quick and simple interventions.

FAQ:

1. **What are the dimensions of the grate?**
The grate measures 990 x 990 mm, with a height of 44 mm.
2. **What is the main material of the grate?**
The grate is made of galvanized and painted steel, robust and weather-resistant, with a corten finish.
3. **Does the stripe design have a practical function?**
Yes, it allows the passage of water and air to the ground, favoring the tree's health.
4. **Is it compatible with pedestrian areas?**
Absolutely yes, the grate is designed to withstand trampling and integrate into urban floors.
5. **Is the corten finish real or painted?**
It is a corten-effect painted finish, resistant to atmospheric agents.

Mini purchase guide:

The **h330_49 grate** is the ideal solution for those who want to protect plants in urban environments without sacrificing a modern and functional aesthetic. The **solid steel structure**, the **stripe design** and the corten finish make this element perfect for integration into sidewalks, squares and public gardens.

The composition in **4 sectors with perimeter reinforcement**, combined with **high-quality hardware** and **fixing brackets**, ensures a lasting and safe installation. An effective choice for urban furniture with attention to detail.
