

Square tree grate 99x99cm with decorations h330_56

Square tree guard grate in galvanized and painted steel, with corten finish, laser-cut with decorative patterns and perimeter reinforcement plate. Dimensions: W. 990 x D. 990 x h. 44 mm.

The **h330_56 tree grate** is an elegant and resistant solution designed to protect the base of trees in urban contexts. Its **steel structure**, laser-shaped, is enriched with **decorative patterns** that combine aesthetics and functionality, making it suitable for well-maintained public environments.

Composed of **4 sectors**, it is equipped with a **perimeter reinforcement plate** for greater solidity. The **corten finish**, in addition to guaranteeing high resistance to atmospheric agents, gives the grate an elegant and natural look, perfectly integrable into any urban furniture project.

The supply includes **hot-dip galvanized steel screws** and **fixing brackets** for concrete surfaces or using plugs, ensuring a stable and secure installation.

The ideal choice for those who want a **protective grate with added aesthetic value**.

Combine functionality and design with the **h330_56 grate**: it protects your trees and enhances the urban space.

Technical features:

- **Model:** square
- **Material:** galvanized and painted steel
- **Perimeter reinforcement plate:** yes
- **Finish:** corten
- **Decorative pattern:** laser-shaped
- **Number of sectors:** 4
- **Dimensions:** W. 990 x D. 990 x h. 44 mm
- **Fixing:** hot-dip galvanized screws and brackets for concrete or plugs

User benefits:

- **Effective protection:** avoids damage to the roots and the base of the tree.
- **Urban decoration:** the laser-shaped pattern enhances the public space.
- **High durability:** steel construction with corten finish resistant over time.
- **Solid structure:** perimeter reinforcement and subdivision into 4 sectors.
- **Harmonious integration:** the design and corten finish allow for a perfect fusion with the surrounding environment.

FAQ:

1. **Is the grate suitable for highly frequented pedestrian spaces?**
Yes, it is made of steel and is designed to withstand the continuous passage of pedestrians.
2. **What type of decorations does the structure have?**
The decorative pattern is laser-shaped, with a modern and functional design.

3. **What is the material used?**

It is made of galvanized and painted steel with a corten finish, ideal for outdoors.

4. **Is it possible to integrate it into a contemporary urban context?**

Yes, the clean design and natural coloring make it suitable for modern urban furniture projects.

5. **Does the decorative pattern compromise the solidity of the structure?**

No, the decoration is designed to offer aesthetics without affecting the overall strength of the grate.

Quick buying guide:

The **h330_56 grate** is designed for those looking for **a robust protective element** but also **aesthetically refined**. The decorative design and the quality of the materials make it perfect for **tree-lined avenues, pedestrian areas or squares** where every detail counts.

With **reinforced perimeter plate, galvanized steel** and corten finish, it offers maximum durability over time and a refined visual impact. A choice that combines **safety, resistance and urban style**.

Square corten tree grate, decorative steel tree guard, laser-cut grate for urban furniture, tree base protection 990x990 mm, galvanized steel urban grate.
