

Square tree guard 99x99 cm with decorative pattern h330_53

Square tree guard in galvanized and painted steel with laser-cut decorative pattern and corten finish. Dimensions: 990 x 990 x h. 44 mm.

The **h330_53 tree guard** is designed to offer **protection and decoration** to trees in public environments, urban gardens, and pedestrian spaces. The laser-cut **steel structure** features an elegant **decorative pattern** that adds aesthetic value to urban furniture.

The grid is divided into **4 sectors** to facilitate management and installation. The **perimeter reinforcement plate** ensures greater strength and resistance to daily stresses.

The **corten finish** is ideal for outdoor environments, as it recalls natural tones and integrates perfectly into the urban landscape. The fixing system is guaranteed by **hot-dip galvanized steel screws** and **brackets for mounting on concrete or with anchors**.

Ideal for urban projects requiring elements that are both functional and decorative.

Add a distinctive touch to your public spaces with the **h330_53 tree guard**, solid and with a refined design.

Technical features:

- **Model:** square
- **Material:** galvanized and painted steel
- **Number of sectors:** 4
- **Decorative pattern:** laser-cut
- **Perimeter reinforcement plate:** yes
- **Finish:** corten
- **Dimensions:** W. 990 x D. 990 x H. 44 mm

User benefits:

- **Secure protection:** safeguards the base of trees in urban contexts.
- **Resistant structure:** made of steel to ensure stability and long life.
- **Aesthetic design:** decorative pattern that enhances the surrounding space.
- **Simple assembly:** structure divided into sectors for easy installation.
- **Urban compatibility:** designed to integrate into public and outdoor environments.

FAQ:

1. **What are the dimensions of the tree guard?**
The dimensions are 990 x 990 mm, with a height of 44 mm.
2. **What type of decoration does the grid have?**
The pattern is laser-cut, with a decorative design integrated into the surface.

3. **Is it suitable for pedestrian or high-traffic areas?**

Yes, it is designed to withstand foot traffic and last a long time in public environments.

4. **What is the finish of the product?**

The tree guard has a corten finish, which is resistant and visually pleasing.

5. **What are the advantages of painted galvanized steel?**

It offers protection against corrosion and greater resistance to atmospheric agents.

Mini buying guide:

If you want to combine **functional protection and aesthetic value**, the **h330_53 tree guard** is the right choice. Thanks to its **decorative pattern** and the **galvanized and painted steel** structure, it is perfect for urban contexts that require durable and visually refined solutions.

The modular grid allows for efficient installation and the material guarantees **resistance to atmospheric agents**. An essential urban furniture component for those who want to protect green areas in an elegant and robust way.
