- **Distinctive design:** decorative patterns for an urban aesthetic touch.
- **Resistance:** galvanized and painted steel for long-lasting durability.
- **Structural robustness:** with perimeter reinforcement plate.
- **Anti-corrosion finish:** suitable for outdoor environments.

FAQ:

1. **What type of maintenance does it require?**
Periodic cleaning to remove leaves or accumulated debris is sufficient.
2. **Is it resistant to impact or foot traffic?**
Yes, it is designed to withstand mechanical stress in public environments.

3. **Does it easily integrate into modern architectural contexts?**

Yes, the simple yet decorative design adapts well to different urban styles.

4. **Is the corten color only aesthetic or does it have a specific function?**

In addition to the aesthetic appearance, it offers protection against corrosion.

5. **Is it also suitable for use in difficult climate environments?**

Yes, the materials and the corten finish make it suitable even in environments exposed to rain or intense sun.

Mini purchase guide:

The **h330_58 tree guard** is the ideal choice for those looking for an element of **protection and furniture** for urban green areas.

Made of **galvanized and painted steel** with a **corten finish**, it offers **resistance, robustness** and a **decorative design** that integrates perfectly into modern contexts. The addition of the **perimeter reinforcement plate** and the **laser-cut pattern** ensures a perfect balance between aesthetics and functionality.
