

## Square urban furniture planter h1003\_18

Urban furniture planter, square 170 L in painted steel, self-standing. Dimensions: W 60 x D 60 x H 63 cm.

The **H1003\_18 planter** is an urban furniture solution with a **minimalist and geometric** design, intended to integrate harmoniously into **modern architectural contexts**. Its **essential cubic shape**, combined with well-balanced proportions and a **slight elevation from the ground**, gives it an elegant, lightened and refined appearance, while maintaining **structural solidity and stability**.

Built entirely of **galvanized steel and painted with thermosetting polyester powders**, it is designed to offer **maximum resistance to corrosion** and atmospheric agents, making it ideal for **continuous outdoor use**. With a **capacity of 170 liters**, it is suitable for housing **ornamental plants, small hedges or green compositions**, becoming a visual reference point in squares, sidewalks, courtyards, entrances or pedestrian avenues.

The **provision for an inner pot** (not included) facilitates maintenance and green replacement, allowing for **efficient management of irrigation and drainage**. The planter can be **used individually or in modular compositions**, to create paths, separations or simply **decorative green areas**.

Bring elegant and functional public spaces to life. Order the **H1003\_18 planter** now or request a personalized offer for multiple supplies.

### Technical characteristics:

- **Material:** galvanized steel painted with thermosetting polyester powders
- **Capacity:** 170 liters
- **Dimensions:** W 60 x D 60 x H 63 cm
- **Weight:** 37 kg
- **Inner pot:** provisioned (not included)
- **Fixing:** self-standing
- **Available colors:** RAL choice from the color chart

### User benefits:

- **Design:** essential and modern for every urban context.
- **Maximum:** resistance to atmospheric agents.
- **Solution:** modular, suitable for series compositions.
- **Easy:** to position and maintain.
- **Prepared:** for inner pot for optimal plant management.

### FAQ:

**1. Is the planter suitable for outdoor use all year round?**

Yes, thanks to the painted galvanized steel structure, it is resistant to rain, frost and UV rays.

2. **Is it necessary to fix it to the ground?**

No, it is self-standing and stable thanks to its weight and wide structure.

3. **Can I use it with real plants?**

Yes, but the use of an inner pot is recommended to facilitate maintenance.

4. **Is it available in different colors?**

Yes, you can choose your preferred color from the RAL chart.

5. **Can it be used in modular compositions?**

Yes, the square shape makes it perfect for multiple and linear installations.

**Mini buying guide:**

Choosing a square planter like the H1003\_18 is ideal for those who want to **delimit spaces, create green paths or define rest areas** in an elegant and functional way.

The linear design makes it **versatile and easy to match**, while the resistant structure ensures **longevity and reduced maintenance**.

An ideal complement for those looking for a **balance between aesthetics and robustness** in contemporary urban projects.
