

Stackable conference room chair h776_72

Stackable chair with chromed steel rod frame, polypropylene seat and backrest available in various colors. Dimensions: W 55 x D 55 x H 81.5 cm.

The **stackable conference room chair H776_72** is designed to ensure comfort, practicality and durability over time. This item, made in Italy by a company certified according to UNI EN ISO 9001:2015, UNI EN ISO 14001:2015 and UNI ISO 45001:2018 standards, represents the ideal solution for furnishing conference rooms, auditoriums and spaces dedicated to events and meetings.

The frame is constructed in **10 mm diameter chromed steel rod**, giving the structure robustness and stability, without sacrificing a modern and minimal design. The **seat and backrest** are made of **polypropylene**, a resistant and easily washable material, available in different colors to adapt to any style and environment.

Thanks to its **stackable function up to 10 units**, this chair offers efficient space management, facilitating storage and transport. Light and easy to handle, it is ideal for setups that require frequent configuration changes.

Choose the **stackable conference room chair H776_72** to furnish your spaces with style and functionality. Contact us now for more information or to receive a personalized quote!
