

Stainless steel and painted metal bin h413_119

70-liter rectangular stainless steel bin with hygienic pedal opening, handle and black painted metal trolley. Dimensions W36 x D46 x H70 cm.

This rectangular bin is designed for professional high-flow environments such as hotels, restaurants, and hospitality facilities, where efficient waste management is critical. The combination of **high-quality stainless steel** and **painted metal** ensures structural strength, corrosion protection, and a modern aesthetic integrated into any contemporary context.

The **front door opening** allows immediate access for bag replacement, while the **black painted tubular pedal** implements a hygienic contactless opening system, reducing bacterial transmission. The **top handle** and the **underlying black painted trolley** facilitate manual transport and maintenance, making waste disposal operationally simple.

With a **70-liter capacity**, this solution is suitable for significant waste volumes, reducing emptying frequency. The **compact dimensions (W 36 x D 46 x H 70 cm)** make it suitable even for limited spaces without functional compromises.

Technical specifications

- **Dimensions:** W 36 x D 46 x H 70 cm
- **Capacity:** 70 liters
- **Shape:** rectangular
- **Body and lid material:** stainless steel
- **Handle, pedal and trolley material:** black painted metal
- **Lid system:** pedal for hygienic opening
- **Main opening:** front door
- **Bag:** not included
