

Stainless steel animal examination table h938_16

Animal examination table in **stainless steel** with water-resistant phenolic top, detachable and with feet. Dimensions: W 120 x D 70 x H 85 cm.

The **stainless steel animal examination table h938_16** is an ideal solution for veterinary clinics and hospitals that need robust and resistant equipment for animal examinations and treatments. The entire **stainless steel** structure ensures optimal resistance to corrosion and wear, particularly suitable for environments where hygiene is an absolute priority. The top of the table is made of **phenolic material**, which offers excellent resistance to water and chemicals, simplifying cleaning operations and maintaining high sanitary standards.

The table is completely **detachable**, making it extremely practical for those who need to move it frequently or optimize space in their clinic. The **feet** offer further stability on floors, improving safety during use. Thanks to its compact dimensions, it is perfect for work environments where space is limited, while maintaining a comfortable work surface for treating animals.

Built to withstand intensive daily use, this table combines **durability** and **practicality**, making it an excellent choice for those seeking a reliable solution for their medical or veterinary facility.

Optimize your clinic with the **stainless steel animal examination table h938_16**, a resistant and practical solution for veterinary visits.

Technical features:

- **Structure:** Made of stainless steel, highly resistant.
- **Worktop:** Phenolic surface, water-resistant and easy to clean.
- **Dimensions:** W 120 x D 70 x H 85 cm.
- **Detachable:** Easy to assemble and disassemble for quick transport.
- **Feet:** to ensure maximum stability.

User benefits:

- Extreme ease of cleaning thanks to water resistance.
- Long-term durability even with intensive use.
- Convenience in transport and storage, thanks to being detachable.
- Stability even on uneven surfaces.

FAQ:

1. **Is the table suitable for all veterinary clinics?**
Yes, thanks to its resistance and practicality, it is ideal for any veterinary facility.
2. **Is the surface liquid-resistant?**
Yes, the phenolic top is highly resistant to water and chemicals, facilitating cleaning.
3. **Can I disassemble it easily?**
Yes, it is designed to be disassembled quickly, making it easy to move and store.

Mini buying guide:

When choosing an **animal examination table**, it is important to consider the **resistance of the materials** and the **ease of**

cleaning, especially if the table will be used daily in a medical or veterinary environment.

Ensure the table is made of **stainless steel**, a durable and corrosion-resistant material, and that it has a **waterproof** surface like **phenolic**, ideal for preventing damage from liquids. If you need to move it or optimize space in your clinic, opt for a **detachable** model, which makes the table easy to transport and store. Finally, ensure the table is equipped with **feet** to guarantee maximum stability in any condition.
