

Stainless steel arched bike rack h10928

Single-space arched bike rack. Stainless steel structure. Available in inground or bolt-down versions. Dimensions mm 728x800h
Made in Italy

The **bike rack** is an essential urban furniture element for ensuring the safe parking of bicycles. It can be placed near urban centers, parks, schools, shopping centers, etc... This model is constructed from shaped tubular steel in an arched form. The central element is made of shaped sheet metal and allows the bike frame to be secured with a padlock. Available in both inground and bolt-down versions. To simplify installation, the bolt-down model is equipped with a practical pre-drilled plate at the base.

Technical characteristics:

- Dimensions: mm 728 x 800 (W x h)
- Structure: in stainless steel
- Base diameter: 120 mm
- **Made in Italy**
