

Stainless steel bag holder with pedal h117110

Professional stainless steel bag holder with pedal and handle, Ø450 x h.850 mm, for kitchens and food laboratories.

Professional bag holder designed for high-traffic environments such as professional kitchens, canteens, food laboratories, and food processing industries. It facilitates the management and storage of organic waste and scrap materials, reducing handling times and improving workplace hygiene.

The structure entirely made of **stainless steel** guarantees resistance to corrosion, ease of cleaning, and compliance with hygiene standards. The **front handle** allows for easy transport even on uneven surfaces, while the **lid opening pedal** allows for one-handed access, maintaining operational practicality.

The **2 swivel wheels covered in soundproofing rubber** reduce noise during movements, a critical element in sensitive environments such as open kitchens or laboratories.

Technical features

- Stainless steel structure
- 2 swivel wheels with soundproofing rubber coating
- Pedal for lid opening
- Front handle for movement
- Dimensions: Ø 450 x h. 850 mm
