

Stainless steel bench with backrest h14002

Outdoor bench for urban furniture and public spaces in stainless steel. Length: 150 cm. Made in Italy.

Bench for urban furniture in stainless steel ideal for parks, shopping centers, squares and condominium courtyards. This bench has been specifically built to last over time.

AISI 304 stainless steel as the dominant element for this bench ensures extremely high resistance to **corrosion from atmospheric agents** such as aggression from salt and de-icing salts. To such strength, it returns a unique simplicity in cleaning the product even from paints containing solvents.

This product proves suitable for use in **urban furnishings that are particularly difficult to manage**; at the same time, with its soft shapes, it gladdens the citizen during pleasant moments of relaxation. Anyone wanting to enjoy the surrounding landscape and relax with a comfortable and anatomical seat designed for maximum comfort must absolutely choose this bench.

Structure:

- **no. 02 supports**, arched in shape, consisting of a double profile in AISI 304 stainless steel sheet, thickness 60 / 10, obtained by laser technology cutting; both supports are characterized by the presence of decorative notches and cutouts on the external profile. Each individual support is provided with a plate, at the base, in AISI 304 stainless steel sheet;
- **seat-backrest shell** made with no. 32 profiles in polished AISI 304 stainless steel round tube, mm. ? 20 x 1.5 complete with stainless steel spherical head terminals. The profiles are welded onto special shapes, in AISI 304 stainless steel sheet, thickness 60 / 10, with a stylized cutout inside. To ensure a comfortable seat, both the shell and the shapes on which the profiles are welded are designed to offer the user maximum ergonomics.

Finish:

- structure entirely in stainless steel

Fixing:

- the supports are equipped with plates provided with holes for anchoring to the ground by means of anchor bolts and expansion plugs; the external screws present on the structure are protected by pressure-fit PVC caps;
- the bench is supplied in an assembly kit, with stainless steel screws and assembly instructions

Technical features:

- Material: stainless steel
- Length: 150 cm
- Depth: 70 cm
- Seat height: 40 cm
- Total height: 80 cm
- Weight: approx. 55 Kg
