

Stainless steel bin and galvanized sheet metal bucket h413_76

18-liter stainless steel bin with pedal lid and removable internal bucket. Diameter 26 cm, height 58 cm. Hygienic and compact.

The **18-liter stainless steel bin** combines practicality and compact design, suitable for both domestic and professional environments. The **pedal lid** allows for hygienic opening without manual contact, a fundamental element in contexts where hygiene is a priority. The **galvanized sheet metal internal bucket**, completely removable, facilitates daily emptying and cleaning operations, reducing maintenance time. With compact dimensions — **diameter 26 cm and height 58 cm** — it is also ideal for small spaces without compromising capacity. The **stainless steel** finish guarantees corrosion resistance and an elegant style that fits into any environment.
