

Stainless steel bin h413_118

Rectangular stainless steel bin 110 liters with pedal lid and front door opening. Black painted metal finishes. Dimensions W 36 x D 46 x H 90 cm.

The stainless steel bin h413_118 is a waste collection solution designed for high-traffic professional environments, where waste management requires practicality, hygiene, and resistance. Ideal for offices, restaurant kitchens, hotels, and common areas, this rectangular bin offers a **capacity of 110 liters**, reducing the need for frequent emptying. The **stainless steel** structure ensures corrosion resistance and durability over time, while the black painted metal finishes of the handle, pedal, and trolley provide a modern and refined look.

The **pedal lid** allows for hygienic opening without direct contact, maintaining high cleanliness standards. The **front door opening** facilitates bag removal and simplifies emptying and maintenance operations.
