

Stainless steel cage with dividers for veterinary use h938_06

Double veterinary cage in stainless steel with removable dividers, thermal and acoustic insulation. Dimensions 122x72x60 cm, ideal for clinics and shelters.

The **h938_06 double stainless steel cage** is a solution designed specifically for professional veterinary environments such as clinics, shelters and surgeries that require high hygienic standards and flexible management of animal hospitalization. Made entirely of **stainless steel**, the cage guarantees extraordinary resistance to wear and corrosion, suitable for intensive daily use. The stainless steel finish allows for quick and effective cleaning, ensuring maximum healthiness for hospitalized animals.

Equipped with **removable dividers**, the cage allows for versatile configurations of the internal space: it can serve as a single large area for larger animals, or as two separate compartments to manage multiple patients simultaneously. The **thermal and acoustic insulation** reduces external noise, creating a quiet and comfortable environment, maintaining a stable temperature that minimizes stress during hospitalization.

Technical features

- **Material:** Full stainless steel for durability and ease of cleaning
- **Dividers:** Removable to adapt the space to different hospitalization needs
- **Insulation:** Thermal and acoustic to ensure peace and comfort for animals
- **Dimensions:** W 122 x D 72 x H 60 cm
