

Stainless steel chafing dish for restaurants h24257

Chafing dish made of stainless steel and ideal for restaurants. Equipped with lid and GN 1/1 basin depth 65 mm.

Food warmer ideal for catering activities, restaurant activities and hotel kitchens, to keep dishes warm and serve them to customers as needed.

The chafing dish is particularly suitable for catering services as it allows dishes to be prepared in advance and at the same time presented to guests as if fresh from the oven.

The product is made of **polished stainless steel** and designed for a **GN 1/1 basin** 65 mm deep.

The food warmer is operated by **fuel (not included)** which can be inserted into **two special supports**.

The **lid** and the **handle** make the product particularly functional.
